

```
private void button1_Click(object sender, EventArgs e)
{
    string frmt, parca;
    double sayi;
    char[] harfler = { 'C', 'E', 'F', 'N' };
    listBox1.Items.Clear();
    listBox2.Items.Clear();

    sayi = Convert.ToDouble(textBox1.Text);
    for (int i = 0; i < 4; i++)
    {

        frmt = harfler[i].ToString() + numericUpDown1.Value.ToString();

        parca = sayi.ToString(frmt);

        listBox2.Items.Add(parca);
        listBox1.Items.Add(frmt);
    }
}
```
